Dear Ms Lakeru,

We are pleased to offer a letter of support to Many Lights Foundation for your effort to develop a multigenerational community to enhance the lives of older adults, foster, kinship and adoptive families in our area.

As a community service provider in the south Puget Sound area for over 40 years, Comprehensive Life Resources has developed, operated and partnered with other agencies on many initiatives and programs to support and serve the population of children and adults that are the focus of the Many Lights foundation.

As a child placing agency and provider of therapeutic foster care, we are particularly aware of the need for permanent resources for children in the foster care system. We believe the Many Lights model would benefit the community and provides an innovative option for children in foster care who are at risk of growing up without a permanent family.

I am pleased to offer my support and encouragement in helping this project become a reality.

Sincerely,

Ghasem Nahvipour
